Rev. 4 del 02.05.2018

The thermal waters that are born from our sources are rich in minerals, of therapeutic virtues and beneficial for the organism.

Particularly suitable for the treatment of arthoreumatic, otorhinolaryngological, respiratory, dermatological and female genital tract diseases.

The structure, in addition to the medical director of the plant, always present during the course of the therapies, avails itself of the consultancy of two specialist medical figures: an orthopedist, an otolaryngologist and a cardiologist

The Thermal Structure has four branches affiliated with the National Health Service:

- Sludge and therapeutic baths -
- Mud and annexing showers -
- Therapeutic baths for arthoreumatic diseases -
- Inhalations and Aerosols -

In support of the structure, the hotel, the bar service and the restaurant.
